

Sedecal F

The Sedecal F fixed height veterinary x-ray system combines a four-way floating tabletop with a powerful, anatomically programmed generator and Canon tubehead for efficient everyday radiography. Available with a choice of generator outputs and compatible with both CR and DR systems, it provides a flexible fixed-room solution for veterinary practices.

KEY FEATURES

Four-way floating top table

Fixed height tubehead

Standard tabletop size 1500mm x 710mm, optionally 1950mm x 710mm

Foot operated electromagnetic table locks

Under table CR cassette or DR panel holder

17 inch colour touchscreen control

Over 300 anatomically programmed preset factors

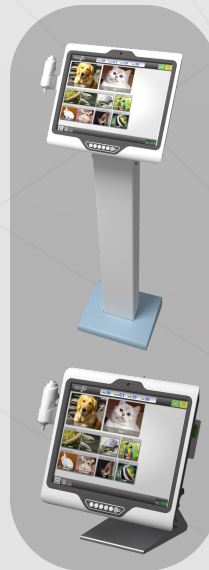

Touchscreen can be wall, tube or pedestal mounted

Dual focus Canon rotating anode tubes used throughout

Suitable for use with all CR and DR systems

GENERATOR OPTIONS

20kW	125kV 320mA
32kW	125kV 400mA
